NuFiber[®] 3X

DRILL CUTTING TREATMENT

NUFIBER 3X BEFORE ABSORPTION

NUFIBER 3X AFTER ABSORPTION

PRODUCT DESCRIPTION

NuFiber[®] 3X is an environmentally safe solidifying product to meet your needs for oil and gas drilling waste treatment. 3X is composed of natural plant residual material, which is proven to be much more absorbent than traditional clay and fly ash based options. NuFiber[®] 3X will absorb and coagulate up to 3 times its weight. It adds less volume, ultimately helping customers to more safely and cost-effectively dispose of waste.

BENEFITS

- ◆ SOLIDIFIES DRILL CUTTING WASTE
- ◆ SUPERIOR WASTE REMEDIATION
- ◆ HIGHLY COST EFFECTIVE
- ◆ USDA CERTIFIED BIOBASED PRODUCT 100%
- ◆ 100% BIODEGRADABLE
- ◆ EXPANDS 1.5 TIMES ITS ORIGINAL DRY SIZE
- ◆ STABLE IN HIGH-TEMP APPLICATIONS
- ◆ CONSISTENT FROM TOTE TO TOTE
- ◆ SILICA-FREE
- ◆ MADE IN THE USA

SUSTAINABLE

- ◆ ENVIRONMENTALLY SAFE
- ◆ PRODUCTION OF NUFIBER[®] DOES NOT DEplete NATURAL RESOURCES
- ◆ 100% RECYCLED FROM VIRTUALLY UNLIMITED SOURCES

APPLICATION

Thoroughly mix NuFiber[®] 3X with drill cuttings, sludge, waste oil or wastewater until all liquids are absorbed and waste is encapsulated. NuFiber[®] 3X can be used on oil or water based waste.
